Notice of Student Directory Information

In conformity with requirements of the United States Department of Education, local school districts must inform parents of information that will occasionally and periodically be provided to the news media and others for publication. Additionally the district periodically publishes a newsletter that is sent to every home in the district, to key leaders, and to government officials. This year, the district plans to expand the website to include more information about our schools. These publications will have photos of and stories about our students.

Directory information includes: student's name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, height and weight if member of an athletic team, dates of attendance, date of graduation, awards received, honor rolls, scholarships, and school photographs or videos of students participating in school activities, events, or programs.

The above information will be included with athletic and awards programs, school yearbook, honor rolls, scholarship winners, music programs, National Honor Society membership, and listing of student names for other reasons. Alumni groups, colleges, military recruiters, and school-related activity sponsors are also provided this information.

The school must provide at least the same access to the high school campus and to student directory information for armed forces recruiting as is provided to other entities offering educational or employment opportunities to those students. "Armed forces" means the armed forces of the United States and their reserve components and the United States Coast Guard.

The district will make the above information available upon a legitimate request unless a parent, guardian, or adult student notifies the school in writing within 30 days from the date of this notification that he/she will not permit distribution of any or all such information. A statement of this policy may be found in any of the school offices.

Notice of Parent's Right to Inspect, Review, and Request Amendments to Student Educational Records

Each school shall establish appropriate procedures for the granting of a request by the parent(s)/guardian(s) for access to their child's records within a reasonable period of time, but in no case more than 15 school days after the request has been made. Where such records or data include information on more than one student, the parent(s)/guardian(s) of any student shall be entitled to receive, or to be informed of, that part of such record as pertains to their child. A school official competent in interpreting student records shall be present to explain the meaning and implications of the records that are examined. In situations where the parents/guardians of a student are divorced or separated, each parent/guardian, custodial and/or non-custodial, has equal rights to their student's records unless a court order specifies otherwise. The District's personnel shall not recognize private agreements between the student's parents/guardians.

Parent(s)/Guardian(s) may ask the District to amend a record that they believe is inaccurate, misleading, or in violation of a student's right to privacy by writing the school Principal or records custodian, identifying the part of the record they want changed, and specifying the reason(s) for the request. The competent school or District administrator shall make a determination on the request in a timely fashion and shall reply in writing to the parent(s)/guardian(s) detailing the actions taken. If the decision is to deny the request, the parent(s)/guardian(s) shall be provided with the information and procedures to request a hearing regarding their request for amendment.

Adequate Yearly Progress

MAPS will review annually the progress of each school in the district to determine whether the school is making "adequate yearly progress" as set forth in the NCLBA regulations. The district will publicize and disseminate to parents, teachers, principals, schools, and the community the results of the local annual review to promote the continuous refining of the program of instruction to meet the challenging academic achievement standards required by the NCLBA.

Identification for Improvement

The District will promptly provide to the parent/guardian of all students in an elementary or secondary school district plans for school improvement, corrective action, or restructuring.

Supplemental Educational Services

If a school has failed to make adequate yearly progress after being identified for school improvement, corrective action, or restructuring, the District will arrange for supplemental educational services for eligible students in addition to the instruction provided during the school day. The supplemental educational service provider will be selected by the parent/guardian and approved by the Michigan Department of Education. If requested, the District will assist the parent/guardian in choosing a provider from the Michigan Department of Education's list of approved providers.

Notice of Right to Inspect Instructional Materials

The District will make available for inspection by a student's parent/guardian (or to a student if the student is an adult or an emancipated minor) all instructional materials, including teacher's manuals, films, tapes, or other supplementary material (including materials accessible through the internet) that will be used in connection with any survey, analysis, or evaluation as a part of any applicable program under the federal Protection of Pupil Rights Act (PPRA). Instructional material does not include academic tests or academic assessments.

Other Policies and Programs

Safe and Drug-Free School Programs. If the District receives funds for Safe and Drug-Free School Programs, irrespective of parental requests, the District will make reasonable attempts to inform the parent/guardian of the program's content if the program is not conducted as part of classroom instruction. The District will submit to the Michigan Department of Education such information that the Department requires regarding safe and drug-free programs, including a description of how the parents/guardians were informed of, and participated in, violence and drug prevention efforts. The District will withdraw a student from a safe and drug-free program upon written notification from the parent/guardian.

Parent and Family Engagement

The Board of Education recognizes and values parents and families as children's first teachers and decision-makers in education. The Board believes that student learning is more likely to occur when there is an effective partnership between the school and the student's parents and family. Such a partnership between the home and school and greater involvement of parents and family members in the education of their children generally result in higher academic achievement, improved student behavior, and reduced absenteeism. This policy shall serve as the District policy, as well as the Parent and Family Engagement policy for each school in the District.

The Elementary and Secondary Education Act (ESEA), as amended by the Every Student Succeeds Act of 2015 (ESSA), defines the term "parent" to include a legal guardian or other person standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the child's welfare).

The term "family" is used in order to include a child's primary caregivers, who are not the biological parents, such as foster caregivers, grandparents, other family members and responsible adults who play significant roles in providing for the well-being of the child.

Family engagement is a collaborative relationship between families, educators, providers, and partners to support and improve the learning, development, and health of every learner. The principles of family engagement include: relationships as the cornerstone; positive learning environments; efforts tailored to address all families, so all learners are successful; purposeful and intentional efforts that clearly identify learner outcomes; and engaging and supporting families as partners in their child's education.

Through this policy (Board Policy 2112), the Board directs the establishment of a Parental Involvement Plan by which a school-partnership can be established and provided to the parent of each child in the District. The plan must encompass parent participation, through meetings and other forms of communication.

Notice of Video Surveillance:

In order to protect the health, welfare, and safety of students, staff, visitors and District property, electronic video surveillance systems may be used to monitor activity on District property.
